## Summary

Energetic, results-oriented software engineer with 2+ years of experience in software development industry. A diligent and avid team player who never backs down. A person with a passion for coding and learning new technologies and frameworks. In the past 2 years I had exposure to variety of javascript frameworks like NodeJs, ReactJs, Redux, Redux Saga, Sequelize, Mongoose, PassportJs and GIT with which I have worked on many web applications both front-end and back-end. Currently I am learning Python as well because it intrigues me how much this language can do. I have excellent comm. Skills. I have been awarded best student of the year award in my college as well.
